

## Testimonials

Holdsworth's has been fantastic for us. Delivery schedule is really reliable and they are always on hand to help when we need extra in an emergency.

Their range of products is fairly priced as well as having a vast selection to choose from. If there is something you need sourcing they always do their best to assist, product quality is always perfect as well as being a friendly and professional service.

It's great to have one main supplier that covers all bases, and they definitely do that for our business and we wouldn't go anywhere else.

Holdsworths are a very good supplier for us. We source a range of different products from them such as frozen and dry goods, and their butchery items are also very good.

The products we receive are of really good quality and the prices are very competitive.

If there's any product queries or problems, the rep we have is always very helpful in trying to resolve any issues or enquires we have quickly.

The drivers we have are always very friendly and the deliveries always come on time.

We've used Holdsworths for quite a number of years now and i can't see why we would change.

Holdsworth foods have been servicing us on a weekly basis since my wife and myself took the Cheney Arms over near on two and a half years ago.

The service and quality of product whether it be fresh, frozen or ambient is second to none, tele sales, drivers and our representative Lee Williamson are always there to help.

Deliveries to us are 3 times a week and Holdsworth is probably our biggest wholesale supplier , the product range is vast and covers all aspects of our business, we highly recommend them.

We have been customers of Holdsworths for approx. 8 years which speaks volumes.

Tele Sales are fast and efficient taking orders and giving advice on products. Our deliveries are always nice and early so that we can get them out of the way before lunch starts and our Driver kindly puts everything in the right places, not just leaving it in one pile.

The range of food, especially now they do Butchery, is excellent and good value for money. Any problems or issues are dealt with smoothly and efficiently.

We only use Holdsworth as a supplier and can highly recommend.

Holdsworths are a very good supplier for us and from when I first took over The Nags Head, the rep had no problem in coming out to see me and go through everything with me.

We now source a range of different products from them and will use them for our meat for Sunday Lunches.

The products I use are of excellent quality and competitively priced. I did look at other companies but why change when it's not broken and customers are happy with the food as well.

The rep I have is always on hand whether it be on the end of the phone or he will pop in.

I have now used Holdsworth for coming up to a year and I am happy with their service and products.
